

Fiber Side Chair Swivel Base w. Gas Lift and Castors

“One of the most difficult and noble disciplines of design is to create simple, well-functioning and almost ordinary objects that nevertheless have a strong identity. We designed Fiber Side Chair to do just that through a clear sculptural language that refuses to compromise on comfort. It’s a chair stripped of all unnecessary layers. The iconic form marries soft, embracing curves with an innovative wood fiber composite, giving Fiber Side Chair a unique expression and tactile texture.”

— Iskos-Berlin

Designed by	Iskos-Berlin
About the Designer	Iskos-Berlin is a Copenhagen-based design duo that has made international headlines within furniture, industrial and graphic design. The studio, formerly known as Komplot Design has collaborated with some of the world’s most prestigious manufacturers and their furniture, lighting and other design products are exhibited at numerous design museums around the world including MoMA and the Designmuseum Denmark.
Environment	Indoor
Country of Production	Poland
Preassembled	Yes
Description	The Fiber Chair brings a new perspective to the iconic shell chair through its innovative composite of wood fibers and 100% recycled plastic. The wood fibers blend into the surface for a matte finish, adding a soft, inviting touch. The Fiber Chair is designed with friendly, embracing curves that provide extensive comfort to its user while taking up little space in the room.

Fiber Side Chair

Swivel Base w. Gas Lift and Castors

Material

Shell - Without Upholstery:

The shell is made using 100% recycled plastic reinforced with strength-improving additives and mixed with up to 25% FSC™- certified (FSC-C028824) wood fibers. The recycled plastic comes from post-industrial waste. Due to the partly natural material of the shell, slight color variations can occur.

Shell – Upholstered Variants:

The shell is made using 100% recycled plastic reinforced with strength-improving additives and mixed with up to 25% wood fibers. The recycled plastic comes from post-industrial waste. Shell can be upholstered with textile, imitation leather, or leather. Leather from selected premium leather suppliers.

Shell – Front upholstered variants:

The shell is made using 100% recycled plastic reinforced with strength-improving additives and mixed with up to 25% wood fibers. The recycled plastic comes from post-industrial waste. Due to the partly natural material of the shell slight color variations can occur. Shell can be front upholstered with textile, imitation leather or leather. Leather from selected premium leather suppliers.

Base:

Swivel base in powder coated or polished aluminum made using minimum 80% recycled die casted aluminum. The recycled die casted aluminum comes from a mix between post-industrial and post-consumer waste. Cylinder in steel. Castors.

Please note that the Fiber Chair with recycled plastic will be available in North America during 2024. Therefore, the North American versions are not EU Ecolabel Certified.

Cleaning & Care

Textile:

For textile upholstered versions: In case of stains, we generally recommend removing non-greasy stains by carefully dabbing with a lint-free cloth or sponge wrung out in clean warm water. If necessary, clean by dabbing with soapy water made with a little dish soap. Finally, dab the surface with clean water. We highly recommend that you go to kvadrat.dk for further cleaning and maintenance instructions for your chosen textile, as the cleaning methods may vary from one textile to another.

Imitation Leather:

Clean with lukewarm PH-neutral soapy water and a soft cloth or soft brush. Do not use solvents or chemical cleaners, but cleaning can be done with alcohol-based cleaners. Finally, wipe with a damp cloth afterwards.

Leather:

As a natural material, leather requires looking after. If you care for the leather in the right way, it will become even more beautiful over time.

Refine Leather, Easy Leather and Endure Leather: Clean leather with a dry cloth regularly. Treat the leather at least four times a year using only special leather treatment products. Visit ca-mo.com for further information on cleaning leather.

Allure and Grace Leather: Only vacuum clean with a soft brush. Never use soap or water otherwise the velvety look and feel will disappear. Do not apply leather grease or soak the leather. Avoid any chemical products, such as saddle soap, leather cleaners or household products.

Base:

Clean with a moist cloth. If necessary, use a little dish soap on the cloth.
